

Sharaf DG is proud to announce the successful implementation of CCTV surveillance system in Choithram's, UAE's top supermarket stores.

Choithram's is true to its mission of customer satisfaction and is a name synonymous with excellence in the UAE region. Sharaf DG offers and supports leading businesses like Choithram's with reliable technologies and solutions to stay ahead of the competition. We help clients with IT infrastructure solutions involving network, computers, storage, desktop/mobile devices, surveillance, audio visuals and cloud services.

By successfully implementing CCTV surveillance solution to our esteemed customers, **Sharaf DG Business** continues to establish and maintain itself as a leading IT services partner.

The CCTV project includes creating a **safe environment, protection, legal compliance and audit, management and support, deterrence, investigation and evidence**, all of which help in maintain the business continuity for our customers.

Here are some benefits of video surveillance and compelling reasons why, if your business does not have a video surveillance security camera system, you need to consider it.

- Security Cameras Increase Overall Safety
  - Recognize Shoplifting & Deter Threats Before They Happen
  - Become Proactive in Preventing Shoplifting
  - Video Surveillance Can Reduce Monetary Losses
- Sharaf dg's expertise in designing the most optimal and scalable solution and implementing the same.

In order to install a CCTV solution for a newly opened store in Chohitram, partnered with us. Our services for this project include:

- CCTV surveillance system consulting and design
- Preparation of CCTV drawings in accordance with standards
- Fixed and motorized 4MP bullet/dome cameras with IR for night vision.
- Network video recorder
- Surveillance hard disk for storage
- 24/7 industrial monitors
- A smart UPS (uninterruptible power supply)
- Structured cabling for CCTV and data transmission. (CAT6)
- CCTV and data conduit in PVC and GI.
- AMCs (Annual Maintenance Contracts) with on-site support for 3 years with extended warranty.
