

# Case Study – Projects by Sharaf DG Business

[#Project](#) – Centralized Meeting Room Solution

[#Company](#) – A leading Construction Company in UAE

[Sharaf DG Business](#) strives to provide the highest quality service to its clients through a consultative approach, aimed at achieving business outcomes. Our team had a great opportunity to work on a project for one of the top construction companies in the UAE, wherein their requirement was to have a centralized meeting room solution with a user-friendly interface and wireless controls.

Through the expertise of our solution and product consultants, we created and delivered an integrated meeting room solution. We simplified the client's meeting needs with a unified conferencing experience to improve the organization productivity. We finished the project within a span of one week.
